STOL CH 750

LIGHT SPORT UTILITY KIT AIRPLANE

Complete Firewall-Forward Kits for various engines include everything you need to install the the engine of our choice in your Zenith CH 750, including engine mount, cowl, propeller and more.

Engine Choices include:

- ✦ Rotax 912 series (ULS and iS Sport)
- ✦ Jabiru engines (six cylinder, air cooled)
- ✦ UL Power (four and six cylinder)
- ✦ Continental and Lycoming
- ✦ Auto conversions (Corvair, Viking, etc.)

Option Kits for the STOL CH 750 Light Sport Utility Kit Airplane

Wingtip Nav / Strobe / Position LED Light Kit

AeroLED: Pair of wingtip mounted three-in-one combination navigation, strobe and position lights.

Landing Light LED Kit

AeroLED: Super-bright landing light mounts inside the wing leading edge slat. Order two kits for wig-wag capability.

Dual Control Sticks

This option replaces the standard "Y" center stick with dual control sticks.

Long Range Wing Tanks

This kit option increases the fuel capacity (and range) of the aircraft to a total of 30 US Gallons (2 x 15).

Tow Bar

Chrome-moly steel tow bar attaches to nosewheel strut for easy towing. Retrofit.

Micro Vortex Generators (VG) Kit

Install these new VGs on the bottom of the elevator for even slower approach speeds.

Folding Wing Option Kit

Fold back the wings for storage or trailering. (The standard wings are easy to detach).

Map Box Option Kit

This map box kit mounts in the instrument panel for easy access. Includes hardware and latch.

Center Console Option Kit

Center console option mounts below the panel; approx. 4.75" wide.

Cabin Upholstery Option Kit

This is an attractive upholstery kit, as installed in the Zenith factory demonstrator aircraft; Grey.

Larger Wheel and Tires

There are a number of available options for larger wheels and tires to replace the standard 6-inch wheels included in the kit.

Floats: Straight or Amphibious: Zenair Floats or Full Lotus Floats: www.myFloats.com

Zenair all-metal floats developed specifically for the STOL CH 750. #1400 Zenair LSA Floats include rigging to the STOL CH 750. Retrofit. Available straight floats or amphibious floats. Available basic kit, pre-drilled kit, or factory assembled (ready to install).

Check www.zenithair.com for current pricing and up-to-date list of available kit options.

STOL CH 750 Firewall-Forward Packages are supplied and supported by various vendors and typically include "everything needed forward of the firewall" including engine mount, cowl, exhaust, engine cooling system, oil

Folding Wing Option
